GODEY'S LADY'S BOOK For 1868. GREAT LITERARY AND PICTORIAL YEAR

The publisher of Godey's Lad'y Book, thank ful to that public which has enab ed him to pub-lish a Magazine for the last thirty-three years of a larger circulation than any in America, has made an arrangement with the most popular authoress in this country-

MARION HARLAND,

Authoress of "Alone," "Hidden Path," "Mo Side," "Nemesis," and "Miriam," who will farnish a story for every number of the Lady's Book for 1863. This alone will place the Lady's Book in a literary point of riew far shead of any other magazine. Ma ion Harland writes for no other Our other favorite writers will all continue

furnish articles throughout the year. THE BEST Lady's Magazine in the World, and the Cheapest.

THE LITERATURE is of that kind that can be read aloud in the family circle, and the clergy in immense num bers are subscribers for this Book.

THE MUSIC s all original, and would cost 25 cents (the pri of the Book) in music stores; but most of it is copyrighted, and cannot be obtained except in "Godey." OUR STEEL ENGRAVINGS.

All efforts to rival us in this have ceased, we may stand alone in this department, giving as we do, many more and infinitely better en gravings than are published in any other work GODEY'S

Immense Double Sheet Fashion-Plate

PROSPECTUS FOR 1863.

NOW IS THE TIME TO SUBSCRIBE OUR TERMS.

There is a great deal of talk among our co-emporaries about the "great rise in the price of paper," and the necessity for a corresponding rise in the price of newspapers. We do not agree with our friends as to the last proposition. Five copies one year, and an extra copy to fifty per cent. at least, and is "still on its wa up." But what of that? Publishers have for person sending the club, \$15. fifty per cent. at least, and is "still on its way up." But what of that? Publishers have for years had a good time with low-priced paper, and made large profits; and now that times have changed they should pay the enhanced price for changed they should pay the enhanced price for paper without whining, and without attempting to get it back out of their subscribers. The inercase in the price of paper will make a differ ence of tens of thousands of dollars to us year y; but we shall not increase the price of the ford it. The retail price will continue to be four cents; and our club terms will remain as the to us when paper was cheap; and we do not in tend to increase our rates to them now when it

ways.' All our old contributors have been re-engaged for the ensuing year; our corps will be so large and will embrace such a variety of eminen alent, that every department of literature wil receive the particular attention of some one competent to do it ample and special justice. Must be Preserved:

The New York Tribune, first issued in 1841 now in its twenty-second year, has obtained both a larger and more widely diffused circulation than any other newspaper ever pulished in America. Though it has suffere inteering and departure of tens of thousand of its patrons to serve in the War for the Un ion, its circulation on the 6th of Decemb 1862, was as follows:

Daily, Semi-Weekly, Weekly, 215,375

THE NEW YORK TRIBUNE, 1863.

Aggregate, Pre eminently a journal of New nd of tterature, the Tribune has political co vice tions which are well characterized by the single word Republican, in its hearty adhesion to the great truth that "God has made of one to the great truth that "God has made of one blood all nations of men"—Republican in it assertion of the equal and inalienable rights of all men to "life, liberty, and the pursuit of happiness"—Republican in its steadfast, ear nest, defiant hostility to every scheme and ef-fort of the Slave Power, from the Annexacion of Texas to the great Rebellion, to gras desources of our country for its own aggrandizement—Republican in its hope and trust its faith and effort, that this atrocious Rebelon must result in the signal overthrow of it plotters, and the firm establishment of equa rights and equal laws throughout the whol extent of our country, wherein Liberty and union shall indeed be "one and inseparable"

henceforth and forever.

The Tribune devotes attention in calme times, and to some extent in these, to Educa tion, Temperance, Agriculture, Invention and whatever else may minister to the spiritu and whatever else may minister to the spiritual and physical progress and well being of mankind; but for the present its energies and its columns are mainly devoted to the invigoration and success of the War for the Union Its special correspondents accompany every considerable army and repert every important incident of that great struggle which we trust is soon to result in the signal and conclusive triumph of the National arms, in the restoration umph of the National arms, in the restoration of Peace and Thrift to our distracted and bleeding country. We believe that no other-wise can a fuller or more accurate view of the progress and character of this momentous con-flict be obtained than through the regular pe-rusal of our columns. And we earnestly solic-it the co-operation of all friends of the National cause, which we regard and uph that of Universal Humanity, to aid us in extending its circulation.

THE TRIBUNE,

A GEM FOR THE MILLION, MME. DEMOREST'S \$5 RUNNING STITCH Sewing Machine.

IT is a PRACTICAL, RAPID, EFFICIENT and DUproportion of Family Sewing, or for manufacture turing purposes, and is highly ornamental, and is so light and portable, (weighing less than one pound,) that it can be conveniently carried in the pocket or reticule.

Its operation is so very simple, that it re quires but a slight degree of judgment to use it.

By the simple turning of a crank with one hand, and guiding the work with the other, it silently yet very rapidly, with a COMMON NEE-DLE, makes the running stitch EXACLLY LIKE HAND SEWING, only more perfect and regular. It will HEM, GATHER, RUFFLE, SHIRR, TECK, RO UP BREADTHS, etc., with a single or double thread, on any material adapted to the Rus NING STITCH, from the LIGHTEST and THINNEST up to two thicknesses of ordinary silk or mus--the thinnest, usually the most difficult to stitch by other sewing machines, being sewe the easiest. For ladies' and children's apparel, and other articles made of light fabrics, it wili therefore be found almost INVALUABLE.

It is attached to the table like a sewing bird, and having no tension, and requiring no lubri-cation or change of stitch, is always ready for operation, and such a marvel of simplicity, that

a child of six or eight years can understand is immediately, and use it successfully. It is not at all liable to get out of order.

The New York State Fair, recently held at Rochester, has confirmed the efficiency and simplicity and great practical utility of this Machine, by awarding it the First Parairie. Each machine is put up in a neat box, ac-companied with full and explicit directions, and

wenty-five needles. Sent to any address in the United States, on receipt of an order, inclosing the amount, or may be collected by Express, on delivery of the Agents wanted every where, to whom est liberal inducements will be offered.

Scrofula, or King's Evil

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated. blood, by which this fluid becomes visited weak, and poor. Being in the circulation, it pervades the whole body, and may burs out in disease on any part of it. No organ is far from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, desordered or unhealthy food, impure air, sin and filthy habits, the depressing vices, indicated in the control of will visit the iniquities of the fathers upon

heir children.

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which is the lungs, liver, and internal organs, is termed the lungs, liver, and internat organs, is terned tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul or-ruption, which genders in the blood, depreses the energies of life, so that scrofulous constinthe energies of life, so that scrofulous constintions not only suffer from scrofulous complaints, but they have fir less power to withstand the attacks of other disenses; consequently vast numbers perish by disordes
which, although not scrofulous in their mature,
are still rendered fatal by this taint in the
system. Most of the consumption which decimates the human family has its origin directly
in this scrofulous contamination; and many
destructive diseases of the liver, kidners, brandestructive diseases of the liver, kidners, bras, and, indeed, of all the organs, arise from or

and, indeed, or an time organs, arise from or are aggravated by the same cause. One quarter of all our people are scrofulous; their persons are invaded by this lurking in-fection, and their health is undermined by it. To cleanse it from the system we must renouse the blood by an alterative medicine, and avigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla the most effectual remedy which the medical skill of our times can devise for this ever-where prevailing and fatal malady. It is en-bined from the most active remedials that he been discovered for the expurgation of this fa-disorder from the blood, and the rescue of the disorder from the blood, and the rescue of the system, from its destructive consequence. Hence it should be employed for the cur of not only Scrofula, but also those other size, tions which arise from it, such as Extrans and SKIN DISEASES, St. ANTHONY'S FIRE ROSE, OF REYSIPELAS, PIMPLES, PUSTUES, BLOTCHES, BLAINS and BOILS, TUNORS, TRIVER and SALT RHEUM, SCALD HEAD, RINGWOOM, RHETNATISM, SYPHILITIC and MERCERIAL DIS-HASES, DROPST, DYSPERSIA, DEMERIT, and indeed, ALL COMPLAINTS ARISING PROM VITIAin "isoparity of the blood." Is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

AYER'S Ague Cure,

FOR THE SPEEDY CURE OF

Intermittent Fever, or Fever and Agus, Remittent Fever, Chill Fever, Dumb Agus, Periodical Headache, or Billous Headache, and Billous Fevers, indeed for the whole class of diseases originating in billary derangement, caused by the Malaria of Minamatic Countries. We are enabled here to offer the community a remedy which, while it cures the above complains with certainty, is still perfectly harmless in requantity. Such a remedy is invaluable in district where these afflicting disorders prevail. The "Cure," expels the minimate poison of Erres. And Ague from the system, and prevent the development of the disease, if taken on the tax approach of its premountory symptoms. It is not any the best remedy ever yet discovered for this district of complaints, but also the changest. The law quantity we supply for a dollar brings it within a reach of every body; and in bilious districts, size Faven, and Ague prevails, every body shall have it and use it freely both for cure and putter. A great superiority of this remedy our my

other ever discovered for the speedy and centa-cure of Intermittents is that it contains as Quine or mineral, consequently it produces no quints of other injurious effects whatever upon the contain-tion. Those cured by it are left as healthy and they had never had the discase. tion. Those cured by it are left as healthy of they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of diseases, the miasmatic poison. A great variety of diseases, Toothache, Earache, Calarrh, Asthma, Paintation, Toothache, Earache, Calarrh, Asthma, Paintation, Phinful Affection of the Spieen, Hydrics, Pain in the Borcels, Colie, Parnigsis and levangement of the Stomach, all of which, when originating in this cause, put on the international type, or become periodical. This "Cuns" expisit the poison from the blood, and consequently sursthem all alike. It is an invaluable protection to immigrants and persons travelling or temperally residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cancut accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from intermittents if they avail themselves of the protection than cure, and few will ever suffer from intermittents if they avail themselves of the protection than cure, and few will ever suffer from intermittents if they avail themselves of the protection than cure of the protection than cure of the protection o
